### Cure Catarrh by Breathing

Geo. F. Sanborn Offers to Return Money if Hymenei Treatment Fails To Cure Catarrh Without Stomach Dosing.

If for a few minutes four times a day you breathe Hymenei, all catarrhal germs will be destroyed and the irritated mucous membrane restored to health.  
With every Hymenei outfit there is a neat inhaler which can be held in the nose or pocket.  
Breathed through this contrivance, same healing power is found in the air upon the mountains, where catarrh is unknown.  
It destroys all catarrhal germs in the air passages of the head, throat and nose, and makes a positive and permanent cure of catarrh.  
The complete outfit costs but \$1, while extra bottles of Hymenei can be obtained for 50c, making it one of the most economical of treatments for catarrh.  
Geo. F. Sanborn believes so thoroughly in the merit of Hymenei, that he guarantees to return the money if it fails. This is certainly the strongest evidence he can give of his faith in the Hymenei treatment. It enables anyone to use Hymenei without risk of spending money for nothing.  
Ask Geo. F. Sanborn to show you a Hymenei outfit and explain to you what a simple and easy way it is to relieve and cure your catarrhal troubles.  
Frank Dalton has sold, through Richard Patter, the Ellis farm in New Hampton to Frank Harvey of Medford, Mass., for a summer house.

### SCISSORS AND PENCIL

The republican party wants a tail and the democratic party a head to their presidential tickets, but the people are not very much concerned over the lack. Why not put what we have together and save the trouble, expense, recalculation and general disarrangement of business incident to a presidential campaign?—Franklin Journal-Transcript.

This is truly a unique suggestion. And as a spectacle, why the centaur wouldn't be in it with such a figure. How would Roosevelt & Hearst do? And would the tail wag the body or vice versa?

Port Arthur is certainly getting well shaken before taken.—Concord Evening Monitor.

Probably that was put in the directions before "boiling up."

Housewives who have been refused a new carpet or chamber set this season will know precisely how Mrs. Roosevelt probably feels because the stingy old congressional committee on appropriations have cut down the item for White House furniture for the next year from \$80,000 to \$35,000.—Laconia Democrat.

Those of us who have been worrying along with grandfathers' clock and grandmother's old arm chair would hardly know how to put \$35,000 into furniture unless the furniture included a safe.

The seed found in the wrappings of an Egyptian mummy buried 3000 years ago, which was planted by a New York florist recently and has now become a tiny plant, is very different from the seeds that congressmen are now sowing to their constituents at the expense of a paternal government.—Boston Globe.

If they would send out a lot of beans, corn, seed potatoes, or even wheat or oats, the recipients would often be able to make use of such seeds. As it is, we opine that very few of the packages are ever opened.—All.

Over forty towns in New Hampshire voted appropriations at their recent March meetings to help pay the expenses of observing Old Home Week.—B.N.

We didn't notice the name of Meredith anywhere in the list.

There is a great deal of truth in the following lines culled from the Manchester Mirror in answer to an article in the Union claiming that with a conservative, steady, reliable candidate in opposition to the Rough Rider the Democrats could win in the Presidential contest.

"An opposition to any candidate becomes effective only when it is concentrated and united so as to vote all his supporters. If divided into three, four, or half a dozen parties or factions, it amounts only to as much as the strongest of those divisions."  
In other words, the Democrats, the Populists, the Socialists, the Prohibitionists and the other odds and ends cannot get together for any candidate. Not only this, but those who call themselves Democrats cannot be united. They may all be opposed to Roose-

velt, provided they can name the man to succeed him, but when it comes between him and any candidate who can be named at St. Louis thousands of them will be for him. Bringing it right home to New Hampshire, if Hearst is nominated, Branch and Mitchell and Woodbury and all their following will bolt, just as they did in 1896. If Cleveland, Olney, or any other "traitor," is elected, the thoroughgoing Bryan men will quit. Parker is the man, Laird, Scully and McWhorter will go over to the Senate or go fishing election day.

The fact is that the Democratic party stands for nothing and is nothing but a negative opposition to the Republicans. It is united upon no national question. It can hold itself together upon no issue, progress. Whenever imperialism, the tariff, the currency, the Panama canal, the army or any other subject comes to a vote in the national legislature the party goes to pieces like a collection of logs when it is driven upon a rock. The Democratic party of these United States is a conglomerate of appetites and grievances, any prejudices and ethics, which shatter it as soon as it encounters solid obstacles. On the contrary the Republican party is solid. It is united. It moves as one body and therefore it wins.

Sliver Dollar Bryan objects to the nomination of Judge Parker on the ground that he is simply an "interrogation point." Well, there are people who are nothing but "exclamation points!"

The venerable Senator floor of Massachusetts is quite liable to be thundering down the ages as the man who talked weight and voted crooked.

Mrs. Walter Hill and a couple of weeks in Lynn.

Mrs. James Dodge and Miss Henrietta Walker of Manchester were guests of Mrs. Albert Hawkins a few days last week.

There has been a nice lot of syrup and sugar made the past week. Martin Woodman takes the cake in quantity and quality both. He is getting \$1.50 a gallon for syrup and 20c a pound for sugar.

Mead Boynton's family are sick with gripe. Those who were sick last week are improving.

Mr. A. R. Kendall and family spent the day Monday with station agent Smith. Mr. Kendall is train dispatcher in the Woodville office of the B. & M. R. R.

McKinnon, Mrs. H. C. Startevant. A meeting of the executive committee will be held the first Saturday in May for the purpose of holding the proposed celebration.

E. W. Smith and two of his men made a visit to Osage Park one day last week to decorate the new large dining room. They all decided that they would not care to winter there.

An item in last week's issue should have read Mrs. Simpson instead of Mr. Simpson.

Mrs. Geo. Simpson, who has been under medical treatment of late, is thought to be gaining fast.

A brother of Mrs. Geo. Jackson,

Mrs. Theodore Hill died at her home last Thursday night. Funeral services were held Sunday. Rev. John George officiating. Interment in the Beech cemetery. Mrs. Hill was 74 years old.

### Waterman's Ideal

### WHAT DO YOU WRITE WITH?

There's more solid satisfaction to the square inch in a Waterman's Ideal fountain pen than any thing else you ever had in your hand. The price is a trifle higher than for ordinary fountain pens but the quality tops the other fellows out of sight. Don't monkey with a common fountain pen, it tends to give its superior, the Waterman Ideal, a bad send off.

The Easter concert at the Baptist church on Sunday evening drew a large crowd, a number being obliged to stand during the exercises. The program given last week was finely carried out, there being several novelties that were very attractive, and all was listened to with great attention. The church was handsomely decorated with flowers and potted plants.

The annual precinct meeting, held at the town hall last Wednesday evening, was largely attended and evoked considerable interest. Several speeches were made by interested citizens, numerous questions of public interest being under fire. The five years' contract with the Meredith Electric Light company, for lighting the streets, runs out soon and its renewal under existing conditions was opposed by several taxpayers. A committee, consisting of J. F. Beale, James A. Youngman and George W. Bartlett was appointed to investigate the matter and thoroughly report in two weeks. The question of providing an ice light in front of the public library was again brought to the attention of the board.

Miss Nina E. Titus, one of the brightest and most brilliant young teachers of the Dorchester High School, Boston, Mass., is spending her Easter vacation with her friends, Mr. and Mrs. J. O. Baldwin at Perkins Cottage on Ballard's Hill. It is her first trip to the Lake region and the impression is so favorable, in spite of its being at the period when nature is torn up for her spring "get-ready-for-the-city" people, that other visits will probably follow. She is an ardent devotee of the "Red and Red" and hopes to get a line on a few "black-bac" later on, or may happen an unwary trout might cross her trilling path seeking a book, only to find himself not "hooking from school" but hooked by Teacher, front and was greeted as an acquaintance, as it has been, in an important part at present meetings for a number of years. Selectman George F. Sanborn stated that the authorities held the sum of \$100 left to the town by the late Henry C. Adams of Boston and proposed that it be expended in the work of putting up a suitable archway near the entrance to the library, and that an incandescent lamp could be connected therewith. A committee comprising the Rev. James Erskine, J. F. Beale and Dr. Dearborn was instructed to confer with Mr. Sanborn of the library building, about the matter. Bradbury R. Dearborn and Edmund Page were chosen as water commissioners to succeed Aaron S. Clough and Perry A. Ellsworth. The retiring fire commissioners, Hiram V. Jones, Frank L. Harbison and Nathan D. Morrison, were re-elected.

D. A. Ambrose, proprietor of the Meredith Music store has opened the new undertaking rooms north of Concord, with an up-to-date stock of goods.

"Rob" Moses has been quite busy on the lake of late. Last Friday he secured seven trout and three crabs, and on Saturday he pulled up seven trout, weighing 28 lbs.

Dr. Nutting has a two-wheel road cart and two or three light carriages which he will sell at a low price. They are all right for mud time. He also has a low-priced wagon suitable for farm purposes.

Eugene W. Fox, 35 years of age, died at his home, 44 Avery street, Laconia, Sunday morning about 10 o'clock of consumption, after an illness of nearly two years. Beside the widow the surviving relatives were two daughters, Edith and Marion; a brother, W. D. Fox of Concord; four sisters, May and Alida Fox of Boston, Mrs. Abbie Emerson of California; and Mrs. Angie Cobleigh of Concord, and a father and mother, Mr. and Mrs. Jonathan Fox of Centre Harbor.

All who are interested in Nature Study should remember the lecture to be given by Miss Agnes Bloom in Ladd hall next Tuesday evening, April 12. Miss Bloom is a teacher of nature study in the schools of Wellesley and understands her subject thoroughly. Members of the Women's Club will be admitted free, it will be the date of their regular meeting. All others will be charged an admission fee of 50 cents.

At the regular meeting of Winthrop Grange on Friday evening there was a small attendance, owing to the storm and bad condition of the roads. A program was presented which included a piano solo by Miss Clara I. Hoyt; reading, Miss Millie Corlies, vocal solo; Katherine Burnett, remarks by E. C. Mansfield and tableaux. "Miss Columbia" and "Uncle Sam" with musical accompaniments.

The following was clipped from the Salem, Mass., Evening Times of Thursday last: "The community was shocked this morning by the news of the death of Mary E., wife of Benjamin M. Smith, the well-known yarn merchant, at her home on Highland avenue about 10 last evening. Mrs. Smith was a lady of rare attainments. Naturally of a kindly and lovable disposition, she devoted herself to a large circle of friends, who are pained by her sudden demise. She was apparently as well yesterday as she has been of late, though slightly indisposed. Her age was 71 years. She leaves a husband and one son, Ralph M. Smith, the assistant postmaster, to whom the sympathy of the community goes out.

Smith, the assistant postmaster, to whom the sympathy of the community goes out.

49 The following was clipped from the Salem, Mass., Evening Times of Thursday last: "The community was shocked this morning by the news of the death of Mary E., wife of Benjamin M. Smith, the well-known yarn merchant, at her home on Highland avenue about 10 last evening. Mrs. Smith was a lady of rare attainments. Naturally of a kindly and lovable disposition, she devoted herself to a large circle of friends, who are pained by her sudden demise. She was apparently as well yesterday as she has been of late, though slightly indisposed. Her age was 71 years. She leaves a husband and one son, Ralph M. Smith, the assistant postmaster, to whom the sympathy of the community goes out.

Miss E. Eva Pike was in town Saturday.

Communicated. In the sketch of old Meredith last week it should have been J. B., not J. S. Swamy's store. This did not stand on the site of Mr. Kidder's house, but, with the sheds, etc., occupied the two lots where Rev. J. Erskine and Mr. Prescott's houses now are.

The remains of the late Mrs. Benjamin Smith were brought from Beverly, Mass., last Saturday and the funeral services were held at the residence of John Knowles, Main street. Rev. Justus Erskine officiated and the burial took place in the Swamy burying ground on Long street. The floral offerings were numerous and beautiful in design.

The South Church was beautifully decorated with choice plants on Easter Sunday and the concert given by the children and the choir in the morning was equally choice also. It was especially "Easter," full of joy and hope and gladness from the organ voluntary to the close. Following is the program.

1. Organ voluntary.

Miss C. M. Bryant spent Sunday with friends in Tilton.

New tires, coaster brakes, etc., at Heath's.

C. K. Blandin, who is seventy-six years old and entirely blind, has saved five cords of hard wood in eighteen days, nearly every stick being saved three times.

Everything for your bicycle at Heath's.

The following poem was composed by Miss Mary Bickford and recited at the Easter concert at the Baptist church Sunday evening.

AN EASTER WELCOME  
A welcome friend, we give to you,  
On this happy Easter day,  
For our dear Lord has risen,  
And earth no more shall grieve.

Sweet voices breaking,  
"The resurrection story,  
For winter's day is broken,  
No more is here the King.

The Easter bells are ringing clear,  
The lilacs bloom,  
And all hearts are glad to praise  
Of the crucified of East Lord.

In our hearts we'd all glorify,  
"The Easter message true,  
"His blood has washed away our sin,  
"His blood has washed away our sin.

The precious life of our Saviour,  
Was given for sinners like me,  
On the cross he died for me,  
For me, he died for me.

But God, that still Easter morning,  
When he rose from the dead, damp tomb,  
All nature put on new garments,  
No more was the earth in gloom.

And this is the story of Easter,  
Told to us by the angels,  
And all our dear Saviour to heaven,  
We, too, shall rise to the light.

COMMUNICATION  
Editor News,  
Dear Sir: I have been quite interested in the history of the town of Meredith in the two last numbers of the News. I wish it could have been more complete. I was born in Meredith village in 1835 and lived there until I was 18, when I came to the city and resided there for many years. I know the town and its people very well. I would like to know if you could carry me back in mind to my boyhood days. Anything in regard to the old history of the town is of much interest to me. I remember well the old steamer "The Fish Hawk" which ran on the lake. There are a few living there now that were schoolmates of mine in the old red schoolhouse on Plymouth St., now used as a blacksmith shop, but most have died or moved away. The Langa, Beale, Fernick, Bonita, Hovey and many other families names have passed away. I look with pleasure every Thursday for the receipt of the News, hoping to see something of interest from my native town.

It will soon be time to ride your wheel. Get it repaired at E. W. Heath's.

Mr. Austin Moulton and Miss Alice Moulton were Lake City visitors Monday.

Mrs. Freeman Frye and children left here last week, en route to Heppner, Oregon. She is to stop with friends in Lowell and Boston, and complete the journey the last of the month.

E. O. Thompson, the shoe repairer, has put out his single again at his old place of business on High street and wants 4,000 shoes, more or less, to repair at once. He also has a few samples of shoes which he will sell at prices considerably lower than those demanded by retailers.

The South church society is making an effort to raise some money for the purpose of putting the church and parsonage in thorough repair. Rev. J. Erskine has generously given one hundred dollars for this purpose, several others have given twenty-five each, and the list is still open.

The members of the Woman's Progress Club will take charge of the edition of the News to be issued April 20. A board of editors has been appointed and they will bring in all the copy
